Our Thanks and our highest loyalty is for you!

A half year is in course now, looks like is getting though in every way our expectations on the beginning of this era, but we have enough time to reflect and evaluate things and situations around us with a big intention, bringing adjustments and necessary changes to our lives as a reason for our essential struggle.

Some of us have been bringing some radical changes and not only superficial, we change this way our own attitude to give a true and certain value to our supreme ideals; developing our ideas constantly to reaffirm day by day the best way to the social positioning and security of our love family and our people.

Because the hierarchy of the light in our nature exhort us to go on even more than what was given to us in this order.

In a world of wolves and lambs, we prefer to be wolves between the wolves!

Golpe a Golpe!

Our special thanks to:

Daniele, Kuntra & Sardinian people (Viva Cerdeña! Nacion Combatientes!!!).

Bustamante**

This pages are dedicated to those who live and die for the ideal, Mauricio Egaña has fall on the fight against the corrupt and degenerated society. One more soldier who dies in the hands of cowards on unequal fight, that's why he is not forgotten by his family because he will live on their hearts, not forgotten by his friends because he will live in their memories, and of course, not forgotten by his comrades who will honor his memory on the struggle. Requiem for Mauricio Egaña.

Herencia 86

The hypocrite and criminal Left side, the same one that thinks the Freedom to express is just for them, forgetting that not long time ago they surrounded the citizens with wire fenced walls and guns, and now, on their impotence to win us in the land of ideas, have assassinated one of our comrades: Mauricio Egaña Bustamante of 30 years of age and father of 2 children; on the dawn of the 25th was surrounded by eleven men who stab him in on the thorax and not happy enough, kicked him repeated times in the ground while Mauricio bled. All this happen in the Commune of Conchalí, Chile. The vile and cowardly murder was made by one of the many gangs of vague drug addicts created by the propaganda of the system to harass those who dissent of the Unique Thought. The cynically press has said that they don't know the reason of the crime,

but for us is very clear. Mauricio was assassinated for his ideas, this crime, far from intimidating us, reaffirms more our fight and show us how noble is our cause. Mauricio Egaña, just like Marcelo Escalera in Argentina, enters his name to thicken the list of martyrs of our Cause.

The omission and silence of the Organizations of Human rights, press and Television is evident, demonstrating to the world exactly how the tolerance and democracy concept is false.

Most probable it is that this political murder is unpunished, because the ideological connection of the assassins is the same

one of the people who is in charge of the government of our nations.

But someday will be the day of the Revenge and the judgment of History will give us the reason.

Mauricio Egaña martyr of our cause. Your comrades do not forget.

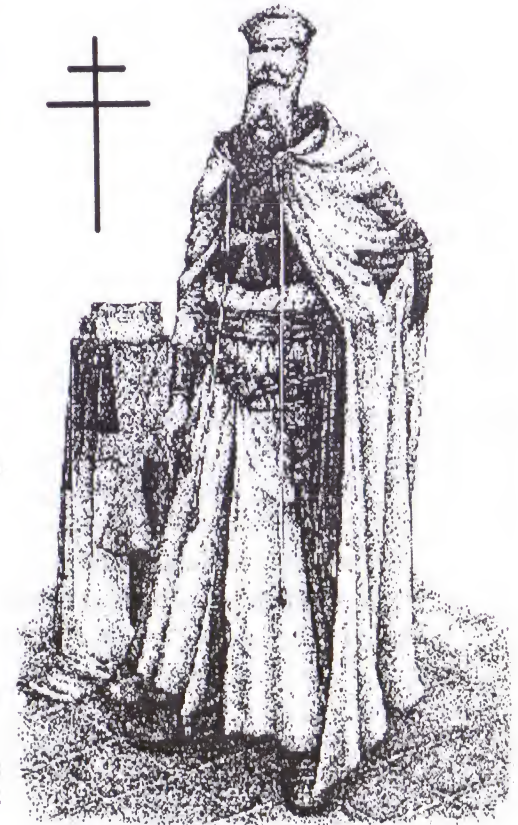

Apology of the Templars

In Hoc Signo Vinces, Crux Sacra Sit Mi Hi Lux

"The Temple: the stone despised by all or the dust and sulfur: the heritage of Lucifer"

Words that evoke the mysterious origin and important mission and as well the insult and infamy of witch were object the brave and noble knight of the order of Temple that during two hundred years extended their power through all Europe and venturing their expansion towards inhospitable lands not very explored in those times and the official history would be in charge to call "America".

Knowledge, Sword and Altar: The perfect formula for the perfect warrior; Honorable knights guided by faith and conviction, moved with singular ferocity by the honor and the cause and fortified in their core by the brotherhood and the pride. In vain it has been tried to take out their glory to this saint ancestry, it has been blasphemed and written in all the languages and all the times about them but almost always with the seditious intention to injury and twist the essential sense of their true mission. By many years another type of secret orders of the sectarian type, with all perversion wanted to relate their origin to the templar legacy. Modern Literature, for example, is plagued of historical pseudo data, lies and truths in half; therefore, there are a few true historians who speak widely on the subject of the Templar order without fantasies, distrust, romanticist arguments or wrong in time. Many others, however, writers and historians are controlled by the Zionism and have written

infames works daring to associate the origin of their bourgeois sects like the Jewish Masonry to the glorious and proud past of templarism.

Many are the scencial factors that oppose the templar tradition against the Masonic manners; masons were born in S. XVIII as a bourgeois association in the fight against the nobility, they have nothing to do with the operary masters and constructors of the gothic cathedrals of Middle Ages (these last ones related to the templar construction masters) masons are incapable and disabled to

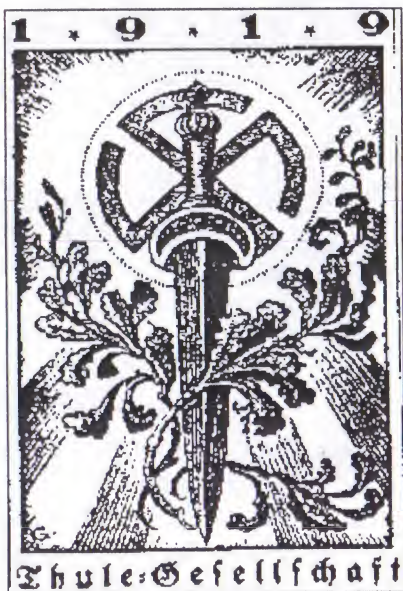

fight shoulder to shoulder for their ideals, quite the opposite, they urge others to fight for them, spreading libertarian and reformist ideas. The Templar order was by nature, a dual society religious-military that made out of their trade the war and the dignity through fight. Masons are universalist without concerning creeds or colors, the templars, however, were in different nations but they were elitist and not any person was initiate in their order without fulfilling certain requirements, plus one of the main characteristics to be a templar was to be bearded, a peculiar characteristic of the white races and its good to say that never were black race templars. The templars as good navigators and constant travelers crossed great part of the world known in that time and always had

contact with diverse cultures from east and west but they always maintained their integrity, that is that being in middle east never were Hebrew or Moors Templars.

Another detail: masons are liberals and they call themselves "philanthropists". The templars are fraternalists between their comrades and promoters of the sinarquism ideal that has nothing to do with the ideal of romantic humanism (sinarquía is the predecessor of fascism)

Besides to all the symbology used by the diverse templar orders, they never used symbols related to Hebrew cabala

but all the symbols of

of

(the templars are

considered like precursors of the fascism; an undeniable fact of this is that previous to the fascist movements of s. XX sinarquic movements and of nationalistic influence existed and impelled it as in the case of the Mexican sinárquic movement, developed at the end of s. XIX and come to the light at the beginning of S. XX, retaking the old motto of: God, Mother country and Family, being against the anarchists and Socialists doctrines.

We have done one short chronicle in synthesis about the templar movement and honor to its memory.

The order of Temple was a dual society, monk-military man founded on the year of 1118 to the time of the incursions crossed towards Jerusalem, 9 selected horsemen form the first templarian decree locating their first location on the ruins of the weather of Salomón during little but of 200 years the order grows and the Mediterranean extends by Europe and from the Latin kingdom of Jerusalem with its bordering Anatolia, Armenia. to the

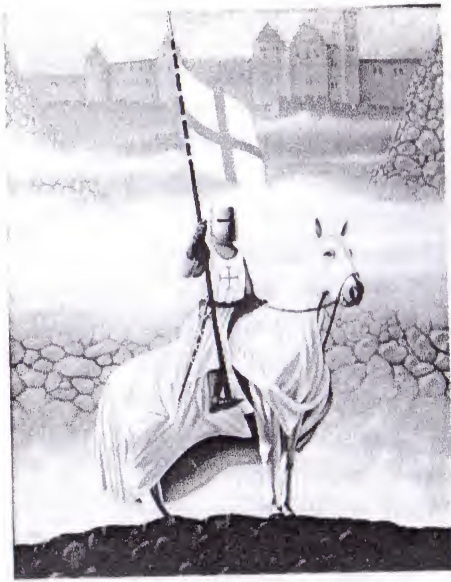

opposite, the templar orders adopted and created as the solar cross, swastikas, tau cross, runes, cross of Malta, very own symbols from ancestral cultures non-monotheists and hated by the universal

judeo-masonry, we can continue enumerating differences like these contradictions, the false belief of the relation the templars with movements supported by Zion but the certain thing or what we can refer like truth is that history in this case is immutable.

Because of their own characteristics of a political-economic-military organization, templars are inspires of the new order in old ages. Each category included in she hers three levels that corresponded with the three stages in the evolution of the man, the set composed an evolutionary and stable social pyramid schematically. The implantation of this templar social scheme would produce in the European West all a revolution (this scheme by so much was varied and vulgarly imitated until the modern times) and its basic operative cell will be the quadrangular and octagonal charges that defensive enclosures with towers in the angles surrounded by pits and some pool. In their interior the diverse buildings were distributed, those of the farm, those of the craftsmen, the shelters, and the great house or convent next to the church of the horsemen. In the course of history they have appear numerous organizations whom they ha tried to contribute to something to the orc of the light and the evolution, these ha been the counterbalance that force again dark societies like masonry exerts Jewi and the universal Zionism. But as it was t true templar contribution to the hum evolution? The answer is transformed sinarquism.

Sinarquism is etymologically a governme with principles, a social model according which has the power (master, to fuehr Duke...) authentically are subordinates those who by their knowledge,

Europe has a long tradition of powerful secret societies, since long time ago; this societies had served to maintain the balance and order. From the Charlemagne times (772 B.C.) until the ending of the WWII (1945) many groups has passed through darkness of European society leaving their existence mark. Of all of this occultist institutions, the longest and probably the most scary of all was the Secret Tribunal.

This organization had several names. Was known as The Geheimericht (the secret tribunal), Tugendbund (Aliance for the promotion of virtue) or Stillgericht (Silence Court) but mostly know as Fehm-,behm or Vehmgericht, old name from unknown origin. Some believe it comes from Fahne (flag) and represent the powerful emblem, or maybe from the old Teutonic word Vehen (means different). There are a lot of theories about the etymologic meaning of this word.

The code of this secret Vehm was published on the Reichstheater de Müller, with the title "the code and rules of the saint secret tribunal of the free counts and free judges of Westfalia", establish on the year 772 by the emperor Charlemagne, before he give them their own power, their mission was to fallow and seek into the shadow those who conspire against society, that was their holly mission of the secret soldiers of light who impose the justice light above offenders.

The Vehm born with the emperor Charlemagne after the Saxony conquest in 722 B.C. dominating the Saxon, thanks to a bloody 33-year- war, the

emperor, helped by the Secret Tribunal, install a reign of terror to the conquest, to make those territories peaceful lands.

The place they arrive was known as West Gaul or West Wales know whit

under this simbol,

we shall oath

this name because all the gale people who emigrate to this place, but later the name change and become Wesfalia.

The power of the Secret Vehem was unlimited and the authority of the tribunal to their members was very valuable and this organization live as clandestine organization. The secret tribunal keep as a mysterious power against crime and dissent. Was illegal through several centuries, But in c. XIV, the Vehm officially come back with the head up high. As many

magical orders, the Vehem was tree levels of initiations, was Schöffen (ordinary initiated), Freigrafen (Officer) and Stuhlherr (maximum figure), Declaring the right to make massive punishment to the criminals in name of Honor and well-being of society. The Hooded members of the Secret Tribunal frequently had their reunions in sacred geomantic places they find on the limits of the cities.

Schöffen were in charged of order. They help in the decisions of the Tribunal, they report the accused and realize quick and summary execution. Never used gallows, their tradition was to hang up their victims on lime- trees generally with a rope of a branch because common rope was prohibited by the law. Accord to the sacred German geographer Josef Heinsch, this lime-trees were located in determined geomantic places.

Schöffen authority was powerful. They could have summary executions against any criminal caught on the act, he can be hang up from the tree without judgment, on the base of the tree the executors may leave a dagger as sign of their power and to advertise to every single criminal as warning they may have the same destiny. In this ceremonial dagger were written the initials S.S.G.G. and mean Strick, Stein, Gras, Grein (Rope, Stone, Fear, Fight). Centuries later, the S.S. letters appear on other men's daggers in charge of similar activities.

As many secret societies, the Vehm has their own internal and ceremonial codes; initiated people were considerate sacred. Their power was such that they can show up disarmed in every place, with the complete security of the vengeance of Vehm will fall on those who will hurt them.

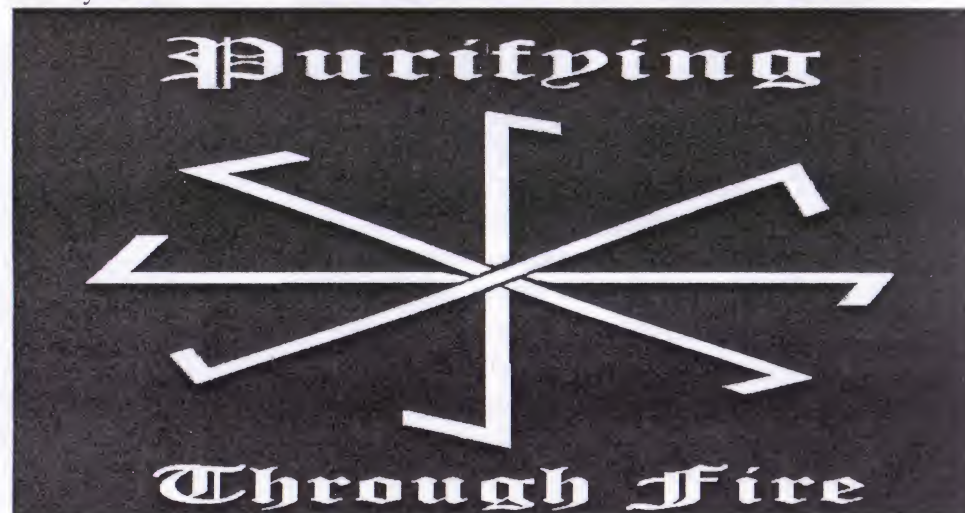

Only some categories of crime were considerate by the Vehm: apostasy, sacrilege, rape and violence to women, especially if they were pregnant, murder, association with Jews, adultery and rebellion. On the Vehm reunions they will decide if a crime requires their action or not. If the answer were positive, then a citatory were deliver on late hours of the night by emissary. The assistance was not voluntary, and if the person doesn't appear, then, was kidnap and delivered to the tribunal. In the beginning of each judgment, the judge or stuhlherr brings the strange emblem called "dag" it was a dagger with 3 blades and also have a solar cross and "v"

engrave (an abbreviation of the Vehm and also meaning the roman number 5) means the number of men, and also the number of the five knights who formed the first Vehm.

The seal of the secret tribunal was a close fist with a sword of justice and their symbol was a symbolic swastika formed with eight square arms, this symbol appears on their standard with a legend written and it said: "Reinier Door Feueri" (purifying through fire).

If the criminal doesn't appear on the tribunal of Vehm, then, every way to try to scape was in vain, the condemned was mark by life, is was called: Strick-Kind (son of the rope), if this men try to hide, then Vehm post a warning in every corner of his home and the only then the hunting begins. When someone try to scape it was judge even if the person shows in the tribunal or not, and the name was written with blood on the red tower (this was a book that had written the codes of Vehm) and if the person was caught, if was the duty of any member of the Vehm to kill him. That was "Die Heimliche Acht" meaning the secret precept.

The punishment of the Vehm was a defense of the empire and society against enemies, several attempts later to try to repress of Vehm were unsuccessful but finally with society evolution, Vehm transformed into a new occult group with more political character, with all this changes, the Vehm associate with more secret societies to keep alive until this times. Last "Freigraf" Zacharias Löbbecke die back in 1826 at the edge of 99 years old, but then, the Vehm was almost a memory; Vehm will be alive again until the finish of the century XIX and the beginning of XX, and taken by other groups as model for their organization and also as base of their system. We are proud to present this great band friend of us, this five warriors from Sardinia forming Kuntra play an excellent combat-nationalist-Oi! not for mediocre criterion people or apolitical skinheads. In Kuntra you will find more than good music, you will feel the power of the true nationalist fight reminding you on each song that are war hymns, that all combative spirit must fight for the roots, family, the land and our people.

Kuntra is more than an rock or Oi! Band, Kuntra is a band with a very own and defined attitude, politically incorrect but totally nationalist with firm bases for their holly cause. Hail for Sardinia! Hail Kuntra!

Next we present this interesting interview answer by our friend Daniele, vocalist of the band, who recently commented us that a new CD of Kuntra is ready at this time.

H86 - It been not much time since I heard Kuntra and I really like it for different reasons; to all our friends who doesn't know Kuntra, can you tell us the history of the group, how begin everything?

D- Kuntra is a nationalist band that hails from Sardinia and was formed officially in October 2000 in Sassari (north-west Sardinia). We are a political band, striving for Sardinian independence. November 2004 we produced our first release, "Paraulas de fogu" promo CD. This "demo" CD had 6 tracks featured and is still available. Today the band's line-up is: Daniele – vocals, Claudio – guitar, Cristian – bass + backing vocals, Danilo – guitar and Nino – drums.

H86 - What represents Kuntra (as band) for you?

D- We formed band first of all for the love for our island, our roots and ancestors. Our thoughts are inspired by the national conception; the nationalism as a fight for the rights of Sardinian people. "Kuntra" is the Sardinian word for "against". We are against the Italian national government, against who wants cancel and humiliate our heritage and origins. We must fight also for our sons. Kuntra represents our way of life. We are Kuntra 7 days on 7, in the life of everyday... with our friends, with our family, at work, at the stadium, in the streets, everywhere. With the help and the cooperation of all components we are looking for to diffuse and to realize our ideals and to promote our nationalist cause through our music. For this reason our lyrics are wrote only in Sardinian language.

H86 - Who writes the lyrics? And what are they based on?

D- The lyrics are usually wrote by me (for the words) and Danilo writes the music. All the lyrics are based on all the troubles of our Island, on the our worst social evils, on our culture, tradition, language that want to cancel, on a people that have lost warrior's spirit, on our forgot history...

H86 - Are more bands in Sardinia? How is the relation with them?

D- In the area there're few bands in Sardinia and especially in the north of island. We haven't official connection with other NS bands. We are different for

background and music style, they're another area, often Italian side. The last important Sardinian skin band have been "Razza fuorilegge" from Cagliari, untied in the 2001.

For the future I don't know. Now in Sardinia there's no many Oi! & combat band, therefore we are obliged often to play with bands that play different kind of music.. but we take the occasion by the forelock for to diffuse the message!

H86- Can you give us your definition of the following words:

- Nation: a people that have a own culture, tradition, language, history, land and conscience of to be Nation.

- Independence: right of to be favourer of own future.

H86- Have you been out of Sardinia doing concerts? Where?

D- Unfortunately none concerts out of Sardinia.. we are in a island but we would like play in all Europe... It's not easy to play in Sardinia especially for a Oi! band politically incorrect as us. But we don't give up! We have supporters and friends that follow us. Among them we'd like to mention our ultras group (Nuova Guardia Torres). We hope to stay on stage more and more and wake up people minds!

THATHART

H86 - What's the history of Sardinia?

D- Sardinia suffered lost of defeats and colonial occupation, but it still is a nation.

After the Nuragic civilization (it lasts 15 centuries from the 1600 B.C. until 111 A.D.) our "independent" age, there was the first Roman invasion in 455 A.D. However Sardinian people were never subdued. They always fought.

In 533 A.D. the Vandals reached the island, then the Byzantines arrived. We had to wait for our independence until 1478 A.D. , when the kingdom of Arborea was built. But it lasts few years: the Spanish people conquered the island (until 1708), then Austrian empire occupied Sardinia (until 1720), finally the Savoia kingdom came (until 1794).

Remembering the insurrection against Savoia we celebrate every year a festival, the 28th of April.

The Sardinian national flag is the officially Spanish "Four moors" flag. It represents the Sardinian kingdom. It's origin is based on a legend; the princes won the moors in 1096, and beheaded them. But we also discovered the ancient "Arborea" flag (a green tree on a white field). It's the symbol of the independence from the Spanish people..

H86 - In general how's the actual situation in Sardinia?

D- After the Second World War we were told not to talk our language: in the fifties and the sixties Italian teachers and professors thought Sardinian language is a dialect, not a language. We risked to forget our past, not only the language, because young people didn't speak Sardinian. In the seventies a new national consciousness developed among Sardinian people. Nowadays the language is spoken by 1 million people (we are "only" 1,6 million persons) even at school and institutions. Sardinian people had democratic laws, when Europe lived in the darkness. Italian government wanted to cancel our language and our heritage just to submit all the people. We were checked by the police from 1984 for about 10 years, because they thought we were criminals. Italy State is our enemy number 1.

H86- How do you describe your music?

D- The aim of our demo was first of all to let the people know our sound and our message but we didn't hope such a good reaction! We had positive reviews. They probably liked our product!

We never thought to sell our cds in Germany, Belgium, Greece, Netherlands or U.S.A.. In our music, we try to mix a combat-Oi! attitude with our traditions, just to let enjoy the Sardinian appearance. In Sardinia exists a wide musical culture, ancient and unique. Anyway we intended to shake the people conscience, to be politically incorrect; and we achieve this aim. As I said before we have different musical background. Anyway Skrewdriver, Brutal Attack , Peggior Amico, Armco, ADL 122, Kenze Neke (historical Sardinian band): they are our favourites. We are also listening to the Spanish-Oi! above all: Division 250, Klan and Estirpe Imperial.

H86 - Have you ever traveled to America?

D- Unfortunately we never travelled to America, only to Europe.

H86- Do you know something about the skinheads in Mexico?

D- I don't know well the skinhead scene in your country, but I am sure that is not easy to be a nationalist and skinhead in Mexico now. I think that your land and your people are in suspense between past and a doubtful future. To be a good nationalist is only way for to come to life again, for to revive with honour and pride.

H86- What plans do you have in the future?

D- Sure to record a full length album with a label that support our band. We have a news songs ready. The demo result it's a unprofessional cd , due to our lack of money! In our opinion it's a pity , but it's our first time in a recording studio, so... the next one will be better! By now we have created a typically "Kuntra sound" for the next product.. We have a style fully our, we're working for the full cd. A roll-call: we are looking for a label for the next politically incorrect production!

H86- How can we get Kuntra material?

D- We have a nice web-site: www.kuntra.it, here there're all news about the band and you can get our material. At present our cds are distributed in a few shops in Sassari, our city in the north of Sardinia.

H86 - Its there something that you want to add to finish this interview? Any messages to all of our readers and comrades?

D- We thank for your attention and we wish you good luck for your fanzine...We salute all the European and Mexican true Nationalists, we trust that only united we can win...and we will win!...
United in diversity, keep the faith! Que viva north Mexico!

P.O.G.R.O.M.

R.A.C. for the Fatherland!

There are a lot of great bands into the Hellenic scene like this young skinhead band called P.O.G.R.O.M., we can be proud to know them and have good relation. This Hellenic band plays a good nationalist s.h. Rock, through the lyrics they show us the pride of his ancestors and their loved fatherland.

We hope soon we can listen more material because we know is going to be very good, and of course, recommendable to all of our comrades. Right now, we present this interview to the Hellenic Warriors!
Keep the Strength and the Great Work!!!

H86. - We thank you all for this interview. Can you give us a general intro about the band? (Beginning, line up, changes, etc.)

P. - Hello, first of all we would like to thank you about the interest. Pogrom formed in the December of 2004 from 4 comrades of the Hellenic national socialist movement named Golden Dawn. Till then we have participated in four live performances and we have released one demo. There are also 3 new tracks in a Hellenic compilation named "Rock for Fatherland". Recently some changes took place in the line up.

H86. - We know the Hellenic scene is very good and also we know some good bands of Hellas too. What can you tell us about it? (New bands, support, union between skins..)

P. - The last years many bands with national-patriotic profile appeared all over Greece. We support each other and our purpose is unity and strength. But unfortunately there are some misunderstandings between skins that we hope soon to end.

H86. - What influences you have in your music and what are your favorite bands?

P. - Our influences are our fatherland, our ancestors, our life's and our dreams. Bands like Skrewdriver, Bound For Glory, Endstufe, 4 Skins are these that we love to hear.

H86. - How can you define the Pogrom style and what's the meaning of the word *Pogrom*?

P. - Pogrom was an antisemitic movement in Russia in the start of the previous century. Our style is to be against all, against the state, the z.o.g. so we needed a word that it will mean that we are not slaves but we are here to fight.

H86. - Tell us about the song *Rock for the Fatherland* and the subjects on your song lyrics

P. - Rock for Fatherland is one of our favorite's songs. The subject is about our style, our music, our scene, our comrades...we make clear that our voice is proud for what we are and we gonna never change beliefs so as to make more friends and drink more beers as many apolitical scums do.

H86. - Right now do you have edited material available? How

[REDACTED]

A can we get it?

P. - we have our demo and the collection that recently released. If someone wants to hear us let's write to the following address: **P.O.BOX 17055 54201 Thessaloniki Greece**. If a comrade or a friend has financial problems we gonna send him our material for free.

P.O.G.R.O.M.

United Hate Against Z.O.G.

H86. - What's the greatest thing for you as Pogrom until this time?

P. - The greatest thing until now is when you sing a song with young and older persons that know them from the streets..one voice..one fight..

H86.- You are part of Blood & Honour Hellas?

P. - No, we are not members of the Hellenic division of Blood & Honour. We appreciate the skinheads of Blood & Honour and they do many things here.

**H86. - What's your relation with other bands and organizations?
Is there any support?**

P. - we support many bands, members of pogrom plays in many bands. We want to help everyone that gonna ask it in every way we can (rehearsals, financial support, propaganda e.t.c.)

H86. - Give me your concept about Nationalism:

P. - Nationalism is to love and protect your fatherland, your civilization, language, ancestor's beliefs, tradition, and race.

H86.- The Hellenic past is glorious, you must be proud; but right now how is the social situation in your land?

P. - Capitalism has prevailed in my land. Many immigrants, no jobs, many cultures, treasonous behavior from the politicians...

H86.- About your concerts, recently you told me about a gig days ago, how was it and wich bands you play with?

P. - It was a great live, in central Greece, we played with White Pride Rockers, Hellenic Stompers, Project Molotov and Humanity has Faile (industrial band).Oi! music for the white race!

H86. - What's next for Pogrom? future plans, concerts, CD's?

P. - Our future plans is a full length CD, and from October we gonna start to work on this. We don't have any plans for lives till now.

H86.- Once again, thank you for the answers and we would like you to give us a message for all our readers and comrades all around the world. Any other comments you like to add to finish?

P. - I would like to tell you that is very important to communicate with comrades all over the world. And I m glad for your interest and your will to get in touch with us. Continue the good job. We are kilometers away but our dreams are almost the same. Never surrender!!

We proudly present this interview from this great band originated in the Greek nation. This young group has a great sense of pure RAC sounds, but most important, their message is clear, direct and 100% nationalist. Enjoy this short interview. Heil to the Hellenic Warriors!!

H86 - Tell us about the history of Legion Hellas, how long have you been playing? Members and line up:

L.H. - Legion Hellas was formed in 2005 in **Thessaloniki, Greece**. At the beginning, the members of the group were only two, but now we have formed a full line-up, which is: **Kostas** - vocals, **S** - guitars, **Artemis** - bass, synths, effects, **Ilias** - drums. The members of the group have been comrades joining nationalistic organizations, so that's why we are all gathered and play music together.

H86 - Have you been in any project before LH?

L. H. - Yes, we have been and continue to play in several groups here in Greece, like Pogrom and White Pride Rockers, so to widen our way of influence for the main Cause and spread widely our ideas. We think that music is something very important and we will not stop propaganda through it.

H86 - What is the meaning of LH for you?

L. H. - Legion Hellas is a group of four people who have common beliefs and try to share their lyrics and music with comrades all over the world. Hellenic Legion is our musical and political weapon, it is our voice of freedom in a capitalistic world of tyranny.

H86 - We know about the Golden Dawn movement in Hellas, are you part of this? Tell us more about it:

L. H. - We are proud members of the ideological movement "Golden Dawn" and the political one "Patriotic Alliance". Golden Dawn is the most powerful and reliable organization in our country for over 20 years, with numerous activities, demonstrations, marches and political actions. Despite the fact that we suffer from the propaganda of media, political parties and police, we have been alive and stronger than any time before! We keep up the fight for Nationalism and Socialism, the struggle for the Cause, which is the whole and the only meaning of our life.

H86 - Any NS organizations in your area?

L.H. - There are not so many NS organizations and that's because the Golden Dawn has a total influence in nationalists here. Apart from Golden Dawn there is also the music section of Blood and Honour, BH Hellas.

H86 - Do you have friendship with any other NS organizations?

L.H. - We are a new-formed band so we have short relations till now, especially with some small groups and bands in European countries. We have also some good friends all over the world, who help us and support our effort. They are real brothers.

H86 - Talk for us a bit about the material recorded of LH until this time:

L. H. - Till now, we have recorded a demo CD under the title "Undertones of Hate", released at the end of 2005, and we have participated with two tracks ("Still fighting for Race" and "Macedonia: Land of Hellenes") in the Hellenic compilation CD "Rock for Fatherland", from Gammadion Music. "Undertones of Hate" was only a small sample of our music, actually

contains two songs ("Undertones of Hate" and "Allies in death"). Our first plan was to create a method of speech, so as to approach the Greek youth through music. There were a lot of people in our country who appreciated our effort and shared our convictions and our anxiety for the future of our race, so that's a good reason for us to continue.

H86 - Still Fighting for Race is one of our favorite themes, we like it very much; who wrote the lyrics of the songs? What does it mean for you this theme in particular?

L.H. - The lyrics of "Still Fighting for Race" are written by Kostas, the singer of the band, who is generally responsible for all lyrics. This theme concerns the whole meaning of life, which is the struggle for our Race. The message concern not only Greek people, but all Whites around the world: to live and act with honour and pride, to fight for race with courage and devotion to duty. Nowadays, racial mixing is something that we often see in European countries like France and England and that's not normal. It's a shame for our ancestors who fought in to create the highest civilizations and build Mother Europe, our land of the free. All that is a distress and has to do with a total decline of morality. White people all around the world must react not separately but in a way to develop an alliance net (organizations, groups etc.) in their countries so as to work together and be more effective. Politics, music, football, internet, street action and violence, magazines and newspapers, activism, all are weapons and help us react. Finally, a union between all white nations all over the world will probably make us stronger.

H86 - What is the influence in the LH music? what are your favourite RAC & Oi! bands?

L. H. - The members of the band have various music influences, from hard rock to black metal. Generally, bands from mainstream music like Manowar, Saxon, Iron Maiden, Bathory, Slayer, Burzum etc. are some of our favorites. As for the White Power scene, we are influenced especially by the German scene and bands like Faustrecht, Freikorps, Endstufe, Sturmwehr, Noie Werte, Hassgesang etc. In addition, in our favorite bands are for sure bands like Bound for Glory, Blue Eyed Devils, Screwdriver and Landser, which wrote their own history in the White worldwide music. In our country we respect and support bands like Iron Youth, Boiling Blood, Naer Mataron, Der Sturmer, Darkthule, Pogrom, White Pride Rockers, Hellenic Stompers, Red.Lock, Molotov Project, The Shadow order etc. Some of them are NSBM, but we think that it doesn't matter, because ideology, enemies and the way we fight are the same.

H86 - Do you have sharps, Turks or reds in Hellas? Talk to us of this subject:

L. H. - I don't know how it goes in your country, but in Greece we have problems both with the System (police, justice, etc.) and the reds, who are trying to act not separately but united in red blocks. Despite the fact that in big cities all these scums together (communists, antifa, anarchists) are more than us, many times they learnt their lesson from all comrades in the streets. And that's why there is not a sharp situation in our country. Maybe there are not more than 10 Sharps in the whole Greece, hahaha! As for Turks, there are not so much of them but there are many Muslims, especially in Thrace, a region in North/Eastern Greece. There were various problems with a minority of them in the past, and this was caused by the fact that they were guided by the State of Turkey. Turkey is an enemy for Hellas and the whole Europe and that's why we have started a political campaign "against Turkey in Europe". Unfortunately, the decline of Europe and its civilization is caused especially by Jews. Most of the governments are poisoned by Jewish bane and so do the Greek one. Politicians and the majority of media in Greece believe in the Hellenic/Turkish friendship, which is something ridiculous for our history and past. Nowadays, globalization is their weapon and it works good for them because money has no borders. And it's money that controls all this stupid "friendship". We have to stop all that before it's too late.

H86 - What projects do you have for the future of LH? gigs, new material?

L. H. - We are preparing a new release and we hope we will have it ready in 2007. Title of the mini-CD (6 new tracks) is "Energy" and its music direction will be more melodic and epic. In addition, we make practice to new material for a live gig in Greece, which will be our first one and we are very happy about that.

H86 - Thanks again brother for your time, something else you like to add for our friends and comrades from other places all around the world?

L.H. - Thank you very much for your interest and support. The best for Herencia 86.

I'm sorry I write that, but only if everything gets worse, the whole world will wake up; and this is the greatest and last chance for us to revive our culture.

Stand proud, stay strong, don't wait for a sign; fight for your future.
Respect, regards and 88!

De Ruyter Korps Nederlandse Rechtsrock

The next interview we present is from a R.A.C. band from the Netherlands send it to us by our friend and collaborator Costas from Blood & Honour Hellas. Lets begging with this interview so we can have a better idea of this great band.

1.FIRST OF ALL WHEN DID YOU FORMED AND TELL US ABOUT YOUR MEMBERS.WHAT DOES DE RUYTER KORPS MEAN?

We are: Maarten (vocals), Bernard (guitar), Rik (drum) en Martijn (bass). The youngest is 21 years and the oldest is 25 years old. Most of us are working in the construction. But our bass player is still studying for his bachelor. We started De Ruyter Korps at the end of 2005 when Brigade M made clear they stopped playing at the end of 2005. At that time Standrecht was the only RAC band so we thought this was the time to start a band to spread our ideas.

De Ruyter Korps is named after Michiel de Ruyter. He is our national hero who lived from 1607 till 1676. He lead our naval forces in some big battles, he meant very much to the history of our country. We thought it would be an honour to name the band after him.

2.WHEN CAN WE WILL LISTEN YOUR FIRST CD?

This is a difficult question to answer. We al play our instruments for about 8 months. So we don't have enough experience to write our own numbers yet at a very productive way. At the moment we have 1 song.

ready. We hope to have a demo CD at the end of 2006 with 3-4 own written songs.

3.YOUR OPINION ABOUT DUTCH SKIN SCENE ,BANDS E.T.C.

As I explained before we had only 1 band left which was Standrecht. They play good RAC with some very good lyrics. Meanwhile Robert (former Brigade M vocal) started a old project again Westland Rebels. He plays together with the bassist of the dutch Pagan Metal band 'Calslagen' and the guitarist of Brigade M. We played our first gig with Westland Rebels in June. It was a big succes. There is some other project going in The Netherlands. Some guys started Stormtroep Oost, But as far as I know they have some problems finding a drummer.

4.YOUR OPINION ABOUT THE PEDOFIL POLITICAL PARTY IN HOLLAND

It is disgusting something like this is happening in The Netherlands. But in our opinion the dutch citizens did not disapprove it openly in the beginning.

There was a demonstration organised in June by a non political organization.. Almost 80 nationalist and NS from different organization came to this demo and maybe 10 'normal' citizens. The results where the organization cancelled the demo because the lack of people. The real reason was the women who organised all this was a half jew who did not want to organize a 'neonazi-demo'.

Since a few weeks some big weblogs are reporting news about this paedophiles. So the public opinion is more and more negative against this party.

5.WHAT IS THE NUMBER OF THE NS DUTCH SKINS AND THE NO POLITIC, SHARP E.T.C.

We got about 150-200 rightwing skinheads and probable the same amount of people who are NS or nationalists but who don't call them self skinheads. I don't know certain about the no-politics skins and the SHARP scum. I know there are some SHARPs in the squatscene in Amsterdam.

6.WHAT DO YOU KNOW ABOUT GREEK SCENE?

Brigade M told us about their great time in Greece. You guys are very hospitality. Also we heard some great songs from Boiling Blood, Iron Youth and No surrender.

7.ARE YOU FOOTBALL FANS? WHAT CLUB YOU SUPPORT?

We are not really big football supporters. Sometimes I go to Feyenoord Rotterdam. We all don't like Ajax Amsterdam. This club has many jews in their board of directors. There hooligans like to call there self jews. Waving with Jew flags when they play. They see the new "Jew" as something great.

8. WHAT YOU BELIEVE ABOUT FRYSIAN PEOPLE? ARE A SEPARATE NATION OR DUTCH PEOPLE?

We think of Frisian people that they are Dutch people in the first place. I think Frisian people will think in the first place they are Frisian and then Dutch. As far as I know there is no movement who is pro-independent Friesland. In the late '60 there were some rumours about a group of Frisian nationalist who would start terrorist actions to demand an independent country. But this was really rumours there were no actions what so ever.

9. ARE NS ORGANIZATIONS IN YOUR COUNTRY?

In the Netherlands are some organizations. We have 2 political parties. These are NVU and Nationale Alliantie. Both these parties call themselves nationalistic parties. There is a nationalist movement called Voorpost in the Netherlands. The only NS organizations are Blood and Honour Nederland and C18/RVF Nederland.

10. THANKS FOR THE INTERVIEW. LAST WORDS ARE YOURS! 28!

We wanna thank Blood and Honour Hellas for this interview. Good luck with the movement in Hellas. And who knows, maybe we will play some time in your beautiful country.

If people want to contact us they can reach us by email. We also have a website but at the moment it is still under construction. The site will be probably fully online somewhere in August.

All Bandits - Great Oi! from Poland!

Recently we knew a good Polish band that plays a fast, hard and rhythmic Oi! Who were very kind and agree to answer this interesting interview, here we let you this interview so you can know them better. And if you haven't known them yet, we really recommend their music! You have to listen All Bandits! Oi! Poland!

H86- We are happy to hear the good skinhead music made in Poland, When it all started?

I'm really glad that you like our music! We started our band in 1999. Since that time we had few breaks, needed to solve a lot of problems and we are still playing music!

H86- Does your line up changed? What is your actual line up?

Yes! The line up of All bandits has been changed many times. Until now we had 4 vocalists, around 7 drummers. At the present time just the bass guitarist and me are the original members. Today's line up: Misiek -bass, Tomek -drums and me (Bandzior) -voc & guitar.

H86- How do you describe your style?

Pure, hard, but melodic hitting oi! Hahaha...listen to it and try to describe it!

H86- What can you tell us about your Country?

We are from Poland – the country with over one thousand years of history. Many times we had to pay our blood for its freedom. Unfortunately Poland is placed between Germany and Russia and this was the reason of a lot of pain. But in spite of few generations of countrymen living under the foreign occupation, casualties of ns occupation during the IIWW and 50 years of red ‘freedom’ we are still here! And we will! Poland is not yet lost while we live!

H86- We would like to know about the lyric in your songs: The lyrics are simple and they concern of daily things like beer, girls, parties, love and hate :)

H86- How do you describe the Poland scene? Scene in Poland is getting bigger and stronger! There are a lot of new bands. But also you can notice sick competition between ‘good PC bands’ and the others – ‘bad bands’ which are not afraid to say what they really think. Even if they are not saying incorrect things, its is enough that they are not saying exactly same shit as those ‘good’ ones.

H86- Have you done gigs outside Poland? where? So far we just played two shows in Czech Republic, but maybe its gonna change because recently we got an invitation to Germany. We would love to play in Mexico as well –heheh. I would like to see your football stadiums and drink some tquila, which I really like!

H86- What represent for you All Bandits? All bandits = Poland! Hahaha... We represent everything what is good, but mainly All Bandits is good polish Oi! music!

H86- Do you have anything recorded at this time? Our discography: CD “Made in Poland”, split CD all bandits/Lumpex75, 7” vinyl EP “Dzieci Ulicy”(available also as a CDEP). + few compilations. You can check also informations about our band in english – www.myspace.com/allbandits, or in polish www.streetmusic.pl (go to ‘bands’ section).

H86- We don't know much about Poland, we would like to know about Skinheads in Poland, a lot of activity? union?

At the moment Skinheads in Poland are divided to many fractions. From sharp, through Oi!, and NS at the end.

Fortunately there are no all these reds perversions like rash or red skins (or maybe somewhere they are but not many enough so you could notice them). Unfortunately the population of skins is not as big as it used to be. You really can notice this on the football stadiums, which in 90's were mainly occupied by skinheads and these days you can see just ‘hip hop gangsta’ kids. Well, this is what happens! But of course there are still bunch of people working for the scene in Poland! We have few fanzines, probably the best one is „Nie Jestes Jednym Z Nas” (You Are Not One Of Us) (Im the one of few working on that magazine), „Produkt Polski” (Product of Poland) or „Nadsat” polish version. In our country there are a lot of good bands as well. I can recommend The GITS, REZYSTENCJA, AWANTURA, CONTRABOYS, RAMZES & theHOOLIGANS, JUNKERS, ... and many many more. We cannot miss

All Bandits either! Hahaha...

H86- Any contact for us to get All Bandits material and music?
If you want to buy music go to: www.olifant.com.pl; www.racingrock.pl
for more info about polish skinheads music go to www.streetmusic.pl; for

H86- We really appreciate your time and disposition for this
interview, something that you want to say for our readers?
see you mate maybe sometimes somewhere! :) Stay Strong & Proud! Oi!

AFTER THE FIRE

PURE AGRESSION FROM THE NETHERLANDS

Pure R.A.C. and aggression from the Netherlands, that's how we define the style of ATF, this great band is more than a promise into the Netherlands scene; is a reality of good sounds and we know they have a more to come. Keep the hard work mates! Next we present this interview answer by the band. Greetings to the Netherlands skins. Enjoy!

H86- We would like to know about the history of After The Fire: ATF- the remains of the bands Offside (Maarten, Eef, Niels) and Best wishes (Richard, Marcel) brought together by big John.

New drummer sander played together with Eef and Niels in the band: Badlands

H86- Why to name the band After The Fire?:

ATF- some of the band members like to play with fire, haha and of course a great song.

H86- How is right now the Netherland Scene?

ATF- we have great bands in the Netherlands, but no gigs. Nobody wants to organize an Oi! or RAC gig anymore. Only punk or more leftwing bands can get gigs in the Netherlands in the known music halls. The scene is getting rougher, more aggressive.

H86- ATF have a political line? We would like you can tell us more about it:

ATF- we all have our own views on the problems in the world. we see what's going on and we write songs about that, but we are not related to a political organization.

H86- In wich Europe countries have you played and how you describe your concerts?

5. we have played in Belgium and Germany and a private party gig in the Netherlands. but it seems that all gigs that were planned for the next months get banned by the police in Germany.

"Staatsschutz" they call it, I believe. There is no freedom of speech anymore.

H86- You have done several gigs in many countries, so, what can you tell us about the union between Skinheads in Europe?

ATF- we all know skins from different countries. Friends in Belgium, Germany, U.K. etcetera. We also visit concerts in those countries to keep in touch.

H86- Have you ever travel to North America?

ATF- Some of us have...

H86- What have you recorded until this time?

ATF- we recorded the song "Fuck 'em up" for the Oi! made in Holland cd. and the "aggression" 3-track e.p. we hope to record our new songs later this

year for a full lenght cd...

H86- What can you tell about the lyrics of your songs?

ATF- about things in life that affect us. Problems in the Netherlands and Europe: the rich getting richer, the poor getting poorer. No freedom of speech if it doesn't fit the government, big brother watching you because you have your own meanings and fights we have been in....

H86- Do you have plans for new projects?

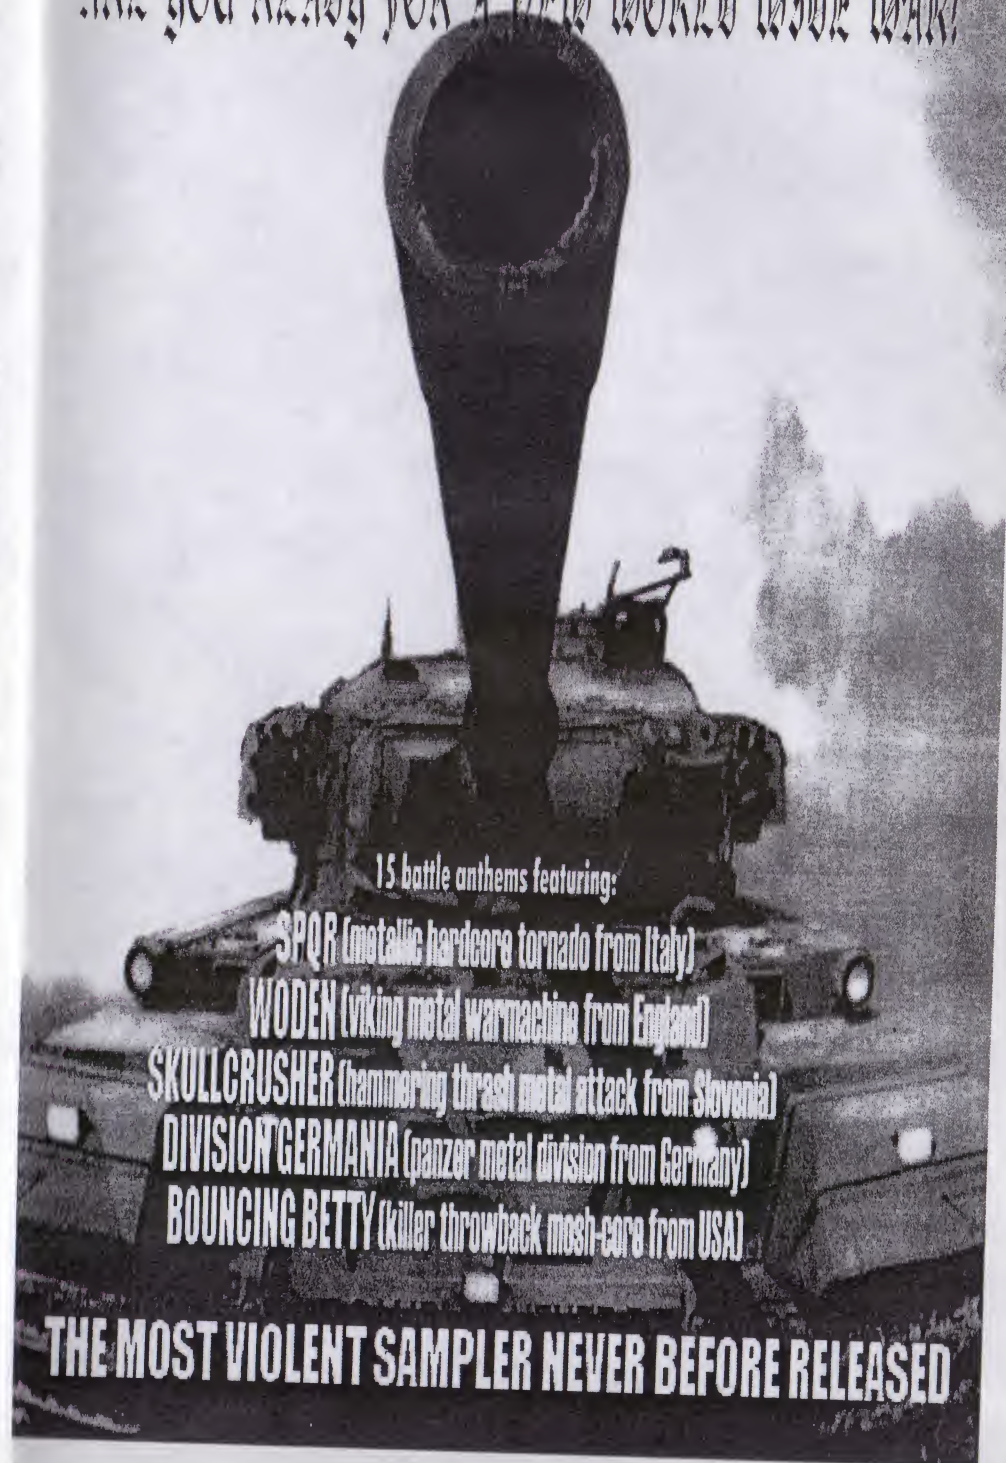

ATF- After The Fire is a unfinished project so we concentrate on that first I think?

Made in Netherlands!

ARE YOU READY FOR A NEW WORLD WIDE WAR?

15 battle anthems featuring:

SPQR (metallic hardcore tornado from Italy)

WODEN (viking metal warmachine from England)

SKULLCRUSHER (hammering thrash metal attack from Slovenia)

DIVISION GERMANIA (panzer metal division from Germany)

BOUNCING BETTY (killer throwback mesh-core from USA)

THE MOST VIOLENT SAMPLER NEVER BEFORE RELEASED

KOLOVRAT (Blood of Patriots)

The innocent blood of patriots flows like a river,
The blood of our Race and its best sons.
This is the Fight in the name of the sacred Europe,
Hail Victory, Slavs, 14 words...
14 words!

Blood of patriots - we'll fight to revenge,
Eye for eye, a hammer and a sword on the enemy.
We'll not retreat, let Fatherland get freedom,
The death of our brothers must be revenged.

They prohibit, put into prisons, persecute and bail us,
But with each new loss we become only stronger.
Hate, rage and anger will not leave us, the fighters,
Rise higher Imperial banners and go bolder into the battle,
Don't regret on anything!

Blood of patriots - mothers' tears and weepings
Of the fallen heroes, the warriors of the right hand.
Blood of patriots - Russian, arise faster,
Believe that the awaited days are already not far...
Not far!

Sleep quiet, the comrades of the past battles,
Martyrs for justice, whose deal is deal.
Sunray will break the heavy gloom of defeats.
Remember, Skinhead, you must save your Folk....
So, save the White Race!

Blood of patriots - pure as dew
The crimson blood again emerges from a wound.
Dead are moaning and we hear their voices,
The European countries are sinking in Aryan blood.

Blood of patriots - we'll fight to revenge,
Eye for eye, a hammer and a sword on the enemy.
We'll not retreat, let Fatherland get freedom,
The death of our brothers must be revenged.

KRASNY BOR 1943 (Krasny Bor)

It was my land my beloved country,
Fight for here since I was born,
Nation that never have to die,
Rise my arm, pick up my gun.

I remember my parents seeing my living
In their faces I saw that I was going to die
I remember that train traveling to the north
Snow-covered mountains in the horizon

I remember the marches over the snow ground,
Sacred flags waving in the wind.

I remember the enemies on bunch,
Their faces of hate were extinguished,
I remember my brother in the division,
Killing and dying for our nation.

I remember military and battle songs,
Nobody shuts the sons of the sun!

I remember that boy running the tank,
Save our life and flying thru the air,
I remember that young man holding my body,
Listening to the bullets whistle in the wind,
I remember my friend hurt to death,
Always resisting on trenches.

I remember the blood running on my forehead,
I remember death coming from the east,
I remember the bullet in my heart,
I remember I fell in Krasny Bor.

February 10th of 1943, two thousand Spanish soldiers died fighting
To defend Europe from Communism and Zionism. We will never
forget you!

Hail Europe! Hail Spain!
